**PETITION FOR WITHDRAWAL OF THE HOLDING OF ABANDONMENT
UNDER 37 C.F.R § 1.181(a)**

Sir:

Responsive to the Notice of Abandonment mailed February 3, 2003, Applicant hereby petitions for withdrawal of the holding of abandonment of the above-identified application under the provisions of 37 C.F.R. § 1.181(a) on the grounds that the Office Action was never received.

The above identified application became abandoned for Applicant's alleged failure to file a response to the Office Action mailed on May 9, 2002. It is respectfully submitted that Applicant did not file a response to the Office Action, as the Office Action was never received by Applicant. As Applicant was unable to submit a timely response, withdrawal of the holding of abandonment of the application is respectfully requested.

A search of the file jacket and docket records confirms that the May 9, 2002 Office Action for Application Serial No. 09/089,789 was not received by Applicant. As a showing of non-receipt of the Office Action, Applicant respectfully submits as "Exhibit A" a copy of the

CERTIFICATION UNDER 37 CFR §1.8	
I hereby certify that the documents referred to as enclosed herein are being deposited with the United States Postal Service as first class mail on this date, April 22, 2003, in an envelope addressed to: ATTN: BOX DAC, Commissioner for Patents, Washington, D.C. 20231.

docket report for Application Serial No. 09/089,789, listing all actions pending or taken in the application. It is noted that while the first Office Action, mailed February 12, 2001 and the response due dates thereto are noted on the list, no receipt of a second Office Action on May 9, 2002 is indicated. Had the Office Action been received, the 1 month response date (designated "2 mo rem") of June 9, 2002 and subsequent response dates through the 6 month response date of November 9, 2002 would be present on this docket report.

It is noted that the Notice of Abandonment was received on February 7, 2003, and that the delay in time from the receipt of that Notice to the filing of the present Petition was due to the exchange of phone calls between the Examiner and Applicant's representative and the Patent Office's ultimately unsuccessful attempt to locate a copy of the Office Action mailed May 9, 2002 and provide it to Applicant. It is noted that messages were left with the Examiner on February 18, 2003 and April 3, 2003. The Examiner called Applicant's representative regarding this action on February 24, 2003, April 7, 2003 and April 9, 2003. The delay between the phone calls was when the Patent and Trademark Office was attempting to locate a copy of the Office Action allegedly mailed May 9, 2002. The Examiner and Applicant's representative further discussed this matter on April 21, 2003, at which time Applicant's representative was requested to submit the present petition, as the Patent Office remains unable to locate a copy of the May 9, 2002 Office Action. After the interview, this Petition was immediately drafted. Therefore, under the exception of 37 C.F.R. §1.183, Applicant respectfully requests consideration of this petition, even though it is submitted more than 2 months after the date of mailing of the Notice of Abandonment, as the delay was primarily due to the Patent Office's inability to locate a copy of the Office Action mailed May 9, 2002.

Attorney Docket No. DIVER1270-3

Applicant therefore respectfully requests a withdrawal of the holding of abandonment on the grounds that the Office Action mailed May 9, 2002 was never received by the Applicant and that the PTO is now unable to locate the Office Action mailed May 9, 2002. No fee is believed due with the present response. However, please charge any additional fees, or make any credits, to Deposit Account No. 50-1355. If the Examiner would like to discuss any of the issues raised herein, Applicant's representative can be reached at (858) 638-6724.

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case unless both applicant and examiner agree that the examiner will record same. Where the examiner agrees to record the substance of the interview, or when it is adequately recorded on the Form or in an attachment to the Form, the examiner should check the appropriate box at the bottom of the Form which informs the applicant that the submission of a separate record of the substance of the interview as a supplement to the Form is not required.

It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.
